

Overview

Look to Dentons' experienced and knowledgeable lawyers and professionals to assist both corporations and individuals in navigating the complicated labyrinth of National Security Clearance rules, regulations and executive orders.

From the implementation and administration of the National Industrial Security Program, to the application for and maintenance of facility security clearances and personnel security clearances, you will be supported by a team that provides full-service National Security Clearance counsel. Whether interacting with the Defense Security Service, resolving the impact of Foreign Ownership, Control or Influence concerns or representing before the Defense Office of Hearings and Appeals, rely on our skilled government contracts practitioners to help your company obtain, maintain and grow its classified business.
